📄 PROFESSIONAL SUMMARY

Aspiring Full Stack Developer pursuing an MCA with hands-on experience in web application development, responsive UI design, and backend technologies. Currently working as a Full Stack Developer Intern at FrontierWox Tech Private Limited, contributing to an Inventory Management System and developing personal web projects. Skilled in HTML, CSS, JavaScript, React.js, Node.js, Express.js, PHP, and SQL, with a strong interest in building efficient, user-friendly, and scalable applications.

🎓 EDUCATION

Master of Computer Applications, St. Joseph's College(Autonomous) 2025 – 2027 | Tiruchirappalli
CGPA (Till Sem II) - 9.3

Bachelor of Science in Computer Science, Fatima College 2022 – 2025 | Madurai
CGPA - 8.6

👛 INTERNSHIPS

Full Stack Developer Intern, FrontierWox Tech Private Limited 05/2026 – Present | Tiruchirappalli
Developed responsive web interfaces and contributed to the **Report Module of an Inventory Management System**. Built RESTful APIs using **Node.js** and **Express.js**, worked with **MongoDB**, and used **Git** for version control.

📁 PROJECTS

MCA Placement Brochure & Management System 09/2026
A web application that collects student academic profiles and dynamically generates standardized, print-ready placement brochures. It provides admins with customizable form settings, real-time submission management, and automated single-page brochure formatting.

Tools Used: Next.js, React, TypeScript, Firebase Authentication, Cloud Firestore, CSS3, HTML5 Canvas, Node.js

Personal Expense Tracker 09/2026
Real-time personal expense tracker web app using JavaScript and Firebase Firestore that manages category budgets in a digital passbook ledger with zero-floor balance safeguards.

Tools Used: HTML5, CSS3, JavaScript, Cloud Firestore.

Online Book Store Management System 01/2025 – 03/2025
Built a responsive online book buying and selling system with user ordering and admin management features for streamlined inventory, order, and customer data processing.

Tools Used: HTML, CSS, JS, PHP, SQL

Age Detection and Comparison System 07/2024 – 10/2024
Real-time age verification desktop app using deep learning and OpenCV that matches detected age range with actual age and gives color-coded feedback.

Tools Used: Python, OpenCV, NumPy, Tkinter, Pillow, datetime, Caffe models

🧠 TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, JavaScript

Web Technologies: HTML, CSS, React.js, Node.js & Express.js

Database Management: SQL, Relational Database Management System, Advanced Database Systems, MongoDB

Core Concepts: Data Structures and Algorithms

Development Practices & Tools: Git, REST APIs, Agile Methodology, Unit Testing, CI/CD | **Cloud & Deployment:** Vercel

📜 CERTIFICATIONS

NPTEL: Data Base Management System

Pitch Fest 2026: Innovative Idea Presenter

International Conference: Research Paper Presented and Published

TCS iON: Group Discussion
